

To Whom It May Concern

This certificate serves as a testament to the exceptional support and significant impact made by the REVY team in the advancement of our biogas plant operations. Through their technical expertise and scientific guidance, the REVY Team played a pivotal role in optimizing the performance of our 150-180 TPD mixed feed waste-based biogas plant.

Over past few months, REVY Team's interventions and solutions were instrumental in resolving critical operational issues, leading to a remarkable threefold increase in biogas output. This significant achievement has not only enhanced our plant's efficiency but also reinforced our commitment to sustainable energy solutions.

Farm Gas extends its heartfelt appreciation to REVY Team for their unwavering dedication, professionalism and expertise. We look forward to continuing this successful collaboration and achieving even greater milestones together.
